Beautiful "God of the Wind" Tuscan style garden planter. Intended for use as an actual planter.

### Features:

- ❖ Weatherproof / freeze-proof design for outdoor use.
- ❖ Drain holes provided for healthy plant growth.

### Single Point Stereo version:

- ❖ One unit produces both left and right channels.
- ❖ Dual voice coil 5-1/4" woofer.
- ❖ Separate left & right 3/4" poly dome tweeters.

PLT-525 Detail

**PLT-525**

Single Channel Connection

Requires two speakers for stereo reproduction (one for left channel and one for right).

**PLT-522**

Dual Channel (Stereo) Connection

Requires only one speaker since both channels are combined within the speaker.

**Suggestions:**

These suggestions will help to increase the longevity of your planter speaker:

Leave your plants in their original pot and place the pot directly into the planter speaker. No transplanting is required.

Place a weed-barrier cloth or mesh screen inside the planter to help prevent clogging of the drain holes.

Place your planter speaker where the speaker will not receive direct water spray.
