

SE-80SWD

8" In-Wall Subwoofer

DESCRIPTION

SE-80SWD 8" Dual Voice Coil Polypropylene Subwoofer with onboard crossovers & high-pass output for satellite speakers.

Elegant frame and grille may be painted to match your decor.

For Superior performance and sound we suggest connecting two or four SE-80SWD subwoofers to one of our 500 Watt Class A/B Model 500 Amplifiers.

Dual subwoofer outputs allow multiple woofers to be easily connected to the same amplifier.

Multiple woofers placed around the room can provide more uniform bass reproduction throughout the listening area.

Model 500
